

## **Grade 6 – Chemistry in daily life**

### **Where can we find chemistry ?**

- In the health field : Antibiotics – Aspirin
  - In the nutrition field : Carbohydrates – Lipids  
– Proteins – Additives
  - In the agricultural field : Fertilizers (compost)  
– Pesticides
  - In the cosmetics field : Perfumes – Creams  
(natural or artificially produced)
- 
- Cooking is a chemistry because heat changes the structure and the heat of food
  
  - Photosynthesis is a chemistry because plant absorbs water & minerals from the soil , carbon dioxide from the air , in the presence of light it produces oxygen and sugar (new products)
