

Grade 6 – Chemistry in daily life

Where can we find chemistry?

- In the health field : Antibiotics – Aspirin
 - In the nutrition field : Carbohydrates – Lipids
– Proteins – Additives
 - In the agricultural field : Fertilizers (compost)
– Pesticides
 - In the cosmetics field : Perfumes – Creams
(natural or artificially produced)
-
- Cooking is a chemistry because heat changes the structure and the taste of food

 - Photosynthesis is a chemistry because plant absorbs water & minerals from the soil , carbon dioxide from the air , in the presence of light it produces oxygen and sugar (new products)
